American Cyanamid Co., Wallingford, Conn.	Sept.	32
Pabst Brewing Co., Milwaukee, Wis.	Sept.	46
Southern California Gas Co., Los Angeles, Calif.	Sept.	50
Parke, Davis & Co., Detroit, Mich.	Oct.	144

NEW

BACHARACH
HYDROGEN SULFIDE INDICATOR

REPLACEABLE GLASS INDICATOR TUBE
DOUBLE-SIDED METAL SCALE (4 RANGES)
SAMPLER—Push Button operates its built-in diaphragm-type suction pump. Adjustable for 16cc or 50cc sample volume per pump stroke.
BACHARACH

Remarkably simplified — indicates hydrogen sulfide concentration directly in ppm. by measurement of H_2S stain in the indicator tube.

★

Sample volume and range can be selected for optimum readability of any H_2S concentration up to 650 ppm. Provides extremely close readability — 1 ppm. graduations — in the super-sensitive 0-17 ppm. range.

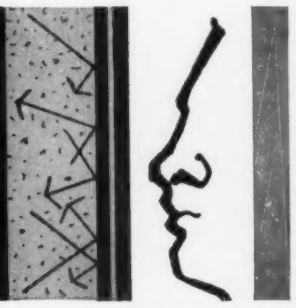
breathe easily and SAFELY



IN DUST — FUMES — SMOKE

DUPOR® No. 4 RESPIRATOR

Big double filters provide extra filtering efficiency and easier breathing. Patented DUPOR valve assures clean air intake and expels breathed air. Soft rubber mask with face cloth insures air-tight fit.

Order today from your safety supplier or write direct — only $2.50 postpaid.

H.S. COVER Dept. 4A, P.O. Box 2508
South Bend 14, Indiana

There are DUPOR respirators for every purpose. More than 1,000,000 adopted as standard the world over. Free literature on request describing complete line.
